

Troyer Horizontal Gourd with Tunnel Entrance

Features:

Tunnel is attached to the Troyer Horizontal Gourd.

NEW! Polyethylene Traction Tread

The porch has deep ridges.

Heavy-duty access port cap

Also available with Round entrance

Trap Compatible

Hanging the Troyer Horizontal Gourd with Tunnel entrance is easy when using a Gourd Mounting Arm, or the horizontal gourd hanging arm. Troyer Gourds have a $\frac{3}{8}$ hanging tube so there is no need to enlarge the hanging tube when using either Gourd Mounting Arms or the gourd hanging arms. All Troyer Gourds hang using the horizontal arm option. Place 2-3 large handfuls of pine needles into the gourd.
